

## The White House Kids Club at Redhill School

White House Kids Club at Redhill School is a fantastic place for children to relax before school starts and unwind after a busy day. We have a variety of different activities available for children to choose from including:

- A quiet, cosy area where children can sit comfortably to share books and talk with their friends.
- A small world play and imaginative area for children to express themselves freely and promote their imagination through small world resources.
- A creative area equipped with suitable resources for children to explore, make and create whatever they like!
- A puzzle and games table where children can take part in group games with their friends, whilst supporting their natural problem-solving process by applying their knowledge.
- A range of construction activities such as Lego and Sticklebricks. This kind of play encourages children to use their creativity to build something from their imagination, helping to make sense of the world around them.
- The computer suite will provide an opportunity for children to access both fun and educational games. Children will also have use of an Xbox One and a range of games like Just Dance, FIFA and Forza.
- The children will also have use of the fantastic outdoor space including sand and water play, fixed climbing equipment, trim trail and mud kitchen. As well as the large playing field for group games and sports!
- A light tea will be provided fresh every day in the hall, including a dessert and drinks. Water will also be available throughout the session from our rehydration station.

**Please see overleaf for fees and how to book.**
